

# Fanfold Trolley

## Convenient large stack transport

### Technical Specifications

#### Dimensions

Length	22"	559 mm
Width	29"	737 mm
Height (empty)	12"	305 mm
Weight	45 lb	20 kg
Color	Gray	

The Fanfold Trolley is then pushed along to the mailroom for feeding to inserters or is engaged into the Stack Turner for flipping over into the correct sequencing for insertion.

Fanfold Trolleys are stackable (*see image*) and compact, minimizing space requirements.

Global service and around-the-clock support help ensure our reputation as the industry's reliability leader. Our products increase productivity, cut labor and paper costs, and even make new applications possible - Tecna solutions truly empower digital print to help you do more with less.

The Fanfold Trolley transports large fanfold stacks from the Tecna Fanfolds. The Fanfold Trolley thus assists in the streamlining of high-volume transactional print and mail environment, as these bulk stacks are fed to inserters from the Fanfold Trolley.

The Fanfold Trolley docks into the Folder modules. The Folder feeds the completed large stacks up to 39 inches (991 mm) high automatically to the Fanfold Trolley while a new stack is begun. The operator fastens a "seat belt" over the form stack for stability, adds a removable handle to the slots on the Fanfold Trolley and disengages the trolley from the Folder.
