

## Interfaces

- Ethernet 10/100 MBit bi-directional (TCP/IP)
- USB
- Serial RS232 / RS422
- Parallel IEEE 1284
- W-LAN
- IPDS
- PLC (Programmable Logic Controller)  
allows process-synchronized print outputs. So MICROPLEX printers can be integrated to packing lines or industrial facilities.

The printers do not provide all interfaces by default. Please look at the data sheets to find the individual standard features.
